

## Claims

1. A telephone comprising:

a body formed of a plastic material, wherein at least part of said body  
5 includes a section formed of a transparent material;  
an adhesive layer provided on the rear face of said section formed of  
said transparent material;  
colored or lustrous fine fragments dispersedly applied onto said adhesive  
layer; and  
10 a painting layer provided on said colored or lustrous fine fragments.

2. A telephone comprising:

a body formed of a plastic material, wherein at least part of said body  
includes a section formed of a transparent material; and  
15 a luminous material mixed in said section formed of said transparent  
material by a predetermined ratio.

3. A telephone comprising:

a body formed of a plastic material, wherein at least part of said body  
20 includes a section formed of a transparent material; and  
a painting layer formed on the rear face of said section formed of said  
transparent material, said painting layer including a luminous material.

4. A telephone comprising:

25 a body formed of a plastic material, wherein at least part of said body  
includes a section formed of a colored or colorless transparent material; and  
fine powders of colored or lustrous materials dispersedly included in said  
section formed of said transparent material.

5. A telephone comprising:

a display having a display panel;

a transparent guard plate disposed outside said display panel with

5 leaving a space to said display panel, wherein said transparent guard plate includes a transparent section corresponding to said display panel and a peripheral section around said transparent section, said peripheral section being formed of a transparent material;

an adhesive layer provided on the rear face of said peripheral section;

10 colored or lustrous fine fragments dispersedly applied onto said adhesive layer; and

a painting layer provided on said colored or lustrous fine fragments.

6. A telephone comprising:

15 a display having a display panel;

a transparent guard plate disposed outside said display panel with leaving a space to said display panel, wherein said transparent guard plate includes a transparent section corresponding to said display panel and a peripheral section around said transparent section, said peripheral section being formed of a transparent material; and

20 a painting layer formed on the rear face of said peripheral section, said painting layer including a luminous material.

7. A telephone comprising:

25 a display having a display panel;

a transparent guard plate disposed outside said display panel with leaving a space to said display panel, wherein said transparent guard plate includes a transparent section corresponding to said display panel and a

peripheral section around said transparent section, said peripheral section being formed of a transparent material; and

fine powders of colored or lustrous materials dispersedly included in said section formed of said transparent material.

5

8. A telephone comprising:

a display having a display panel;

a transparent guard plate disposed outside said display panel with leaving a space to said display panel, wherein said transparent guard plate includes a transparent section corresponding to said display panel and a peripheral section around said transparent section, said peripheral section being formed of a transparent material;

an adhesive layer provided on the rear face of said peripheral section;

colored or lustrous fine fragments dispersedly applied onto said adhesive

15 layer; and

a painting layer provided on said colored or lustrous fine fragments,

wherein said transparent section including a front face and a rear face facing said display panel, said front face being formed as a convex lens having a convex surface, said rear face being formed as a Fresnel lens having a convex lens function.

9. A telephone as defined in either one of claims 1, 4 and 7, wherein said colored or lustrous fine powders are formed of metallic foil.

25 10. A telephone as defined in either one of claims 1 to 9, wherein said telephone is a portable telephone.
